## What does the ICS student council do?

Micah Woodward Faudree & Bianca Andrade  
ICS section reporters

The student council does lots for the school, but what exactly do they do for the school? The student council meets every month with two teachers to talk about different changes for the school. Ella Scott is the treasurer and she says she wants to raise money for the school by doing dress down days that are themes that everyone can do. I think she is going to make some great changes.

Ella Scott dice que corre para una elección en cuarto grado y tienen una posición en quinto grado. Para ganar la elección, necesitas un cartel. También necesitas preparar un discurso para tener más votos de primer, segundo y tercer grado. Si la mayoría de personas votan por ti, ganas. Si ganas, felicidades.

### Student Council Positions

**President:** Bella Costennera  
**Vice President:** Marquis White  
**Treasurer:** Ella Scott  
**Secretary:** Leah DaCosta

## La cadena de comida highlight of third grade Art class project

Alessandra Orozco-De Leon & Amelia Catrambone  
Animal section reporters

Un cadena de comida son animales que comen a otras cosas. Por ejemplo, un conejo comen zanahorias. La Serpiente come conejo. Los conejos hacen agujeros en la tierra. La mama hace bebés y cuándo se acerca a los conejos ellos hacen bebés. Las águilas comen serpientes de diferentes clases. Serpientes comen conejos. Un tiburón come grande pescados y los grande pescados comen pequeños peces y los peces comen algas. Gatos comen pescados y pescados comen algas.

Tigres comen pequeños osos y osos comen peces. Bebés son pequeños y cuando son grandes van a encontrar comida. Por eso a mi me gusta la cadena de comida.

Another food chain starts with tigers. The tiger eats small bears. The small bears eat deer. The deer eat plants. I am glad food chains exist because the world would have too many animals! Also tigers eat deer and lots of other animals like this. All you

know is that the tiger eats small bears and deer, but you are going to learn more! The tiger eats birds, squirrels and they sometimes eat snakes.

Do you want to know more information? YES! Then listen to this- I am doing food chains in art class, so if you would like to see my work than look at this----->

My friends and I are making collages and the collages are food chains with the organism that we want. Some people are doing pop-outs. It is going to be a very good project in Art! I hope you like it, Ms. Allison!

The third grade art projects are now on display in the hallway.

From top to bottom: Art by Alessandra Orozco-De Leon, Amelia Catrambone and all third grade Art students.

Once there was a fish who got fished up by a fisherman. The fisherman was really from a fish store.

The fish thought he was going to fish paradise, but he was really going in a pot!

He decided to ask one of his friends how the water was when he got dipped in. He cried "Sea! Kelp! Kelp!"

Comic by Adelaide Carey

Y después, él estaba un juguete otra vez.

A great white shark swims in the deep ocean water.

## Great white sharks

Belyt Guillen-Ruiz, Alani Giron & Julissa Delcid  
Animal section reporters

I learned about sharks in books and there are books and photos of sharks in Ms. Brooke's room. Sharks are fast because they have a fin and they move around to look for food. Sharks are long and they have a lot of teeth. Great white sharks live in the deep ocean. Great white sharks are cold-blooded. Great white sharks do a big bite when they want to eat something. When they open their mouths, sharks breathe through their gills.

Great white sharks are not really white. They can smell blood from far away. Sharks eat a lot of fish. Great white sharks swim a lot. Great white sharks sometimes have blood on their teeth. Great white sharks have big teeth. Great white sharks also have big eyes and a big mouth.

## Shark fun facts

1. Great white shark live in the clean ocean.
  2. The great white shark hunts almost every day.
  3. When they are going to eat something, their mouth is open really wide.
  4. The great white shark is really big.
1. El gran tiburón blanco vive en la agua limpia.
  2. El gran tiburón blanco caza casi todos los días.
  3. Cuando los grandes tiburones blancos van a comer algo, abren sus bocas muy grande.
  4. El gran tiburón blanco es muy grande.

# All about dogs!

Aidan O'Neill, Alejandro Sanchez & Karla Paniagua  
Animal section reporters

Aidan: My yorkie named Onyx had two surgeries. Onyx had one on his leg and one for neuter. My yorkie was in a cone for a long time and my dog had stitches. My family rescued Onyx from a lady and adopted him before his mom died. And now he lives a happy life with my family!

## Did you know?

1. Yorkies have good noses, so they can smell 100,000 times better than humans.
2. Yorkies have thick hair to keep warm in the winter.
3. Yorkies get along with other yorkies.

photo by Aidan O'Neill  
Aidán's yorkie, Onyx, poses for a picture.

photo by Alejandro Sanchez  
Alejandro's puggle named Luna likes to play games and play with his other dog, Premo.

## Puggles

El puggle come comida de perro, su nombre es "puppy chow." Ponerle un poco de agua y es todo lo que el puggle necesita para comer. Al puggle le gusta jugar y a mi me gusta el puggle. El hábitat del puggle es una casa o afuera. Afuera es muy peligroso porque el lobo se lo puede comer a ellos. El puggle es la chica porque es una raza mezclada entre un beagle y un pug.

If your dog gets lost, you could write a sign. The sign will have the dog's name, age, type of dog, where the dog was last seen, and the owner's phone number. Dogs sometimes run away when the door is open so you should put on a leash. The owners could be sad because the dog ran away. If they find the dog, they will be happy.

# Tornados y huracanes

Samantha Solares, Pamela Durango-Ramirez & Jeremy Soto  
Weather section reporters

Los tornados son populares en los Estados Unidos, especialmente en la mitad. Los tornados se expanden hacer muy grandes y poderosos. Un tornado es un violento rotando columna de un tornado de rayos al suelo. En la hemisferia del sur de tornado normalmente como un reloj. Estados Unidos normalmente impacta Texas, Kansas Oklahoma y Florida. Un tornado que ocurre sobre el agua se llama punto de agua.

Tornados are popular in the United States, especially in the Midwest. Tornados become wider, bigger and more powerful. A tornado is "a rapidly spinning tube of air that touches both the ground and the cloud above." Most of the tornados have less than 100 miles per hour wind speeds. The United States is hit by tornados in Texas, Kansas, Oklahoma and Florida. A tornado that is on water is called a waterspout. I learned that you can't see all tornados.

Hurricanes, typhoons y cyclones son lo mismo excepto son para océanos diferentes. Huracanes son tormentas en el Pacífico, typhoons son para las tormentas en el noroeste del Pacífico y cyclones son para las

tormentas en el Océano Indio. Los huracanes son clasificados en números de uno a cinco. La temporada de los huracanes es entre Septiembre y los finales de Diciembre. Los huracanes son tormentas cuando el aire frío y caliente empuja contra ellos. Agua fría de Norte America no deja a los huracanes a sobrevivir. Los huracanes dan vueltas muy rápido en el océano pero cuando su camino lo dirige a la tierra, rota más despacio y muere.

Hurricanes, typhoons and cyclones are all the same except they are in different oceans. Hurricanes are storms in the Pacific Ocean, typhoons are in the northeast Pacific, and cyclones are in the Indian Ocean. Hurricanes are classified in categories of numbers from one to five. Hurricanes are popular from September to the end of December. Hurricanes are storms when hot air and cold air push against each other. Cold water from North America prevents hurricanes from surviving. Hurricanes rotate fast, but when they touch land they slowly die. If you want to learn more you can go to: <http://www.sciencekids.co.nz/science-facts/weather>

# WEATHER

3

photo of tornado from www.howstuffworks.com

Hurricane Patricia is a storm that passed by Mexico. Hurricane Patricia had rain, strong wind and floods. When it floods, cars can't go that fast and when people walk they can't walk very fast. A flood is when strong rain goes to the ground and when water comes from the oceans. Hurricane Patricia can be extremely dangerous!

Photo of the eye of a hurricane is from www.policymic.com

## Weather at school y en el verano

When it is not cold, we can go outside. In ICS when it is rainy and snowy, we can slip and fall on our heads. When it is 27 below, we can't go outside and if we don't wear our coat or gloves we might get frostbite. Sometimes when its snows we can go outside. When it is really cold, we play inside.

En el verano te quemas la piel. En el verano te puedes quedar en la piscina y también en el verano, tu vas a la playa.

photos by Alexa Perez

The photos of the trees and fallen leaves were taken from a local park.

Alexa Perez & Gaby Hernandez  
Weather section reporters

In ICS when it is cold we can't go outside because it is too cold for the students.

En el verano, la temperatura sube y baja. A veces la temperatura es muy alta. En el verano se necesita mucha agua. A veces hay sol pero está frío. A veces el sol está fuerte.

# Facts about the red panda

Ariel Popa & Emily Montes  
Animal section reporters

Un panda rojo es diferente de un panda.

Los panda rojos viven en Asia.

Red pandas save their babies from other predators.

The red pandas mostly spend time in trees.

photo courtesy of Wikipedia

Los panda rojas perse como un zorro.

Un panda rojo come grama, raíces, y frutas.

The red pandas mostly live by themselves.

Los panda roja se come los bambúes.

If an animal tries to attack the red panda, the red panda can smell them. I am afraid that the red pandas are in danger, but this can help them survive.

## Billy and the math book: A comic by Nathan Affleck

Two boys went to the park and Billy tripped on a math book.

They went home and read on the internet what the math book was about.

Then they found out there are cool equations that help Billy become a better math student.

On Monday, when Billy goes back to school the teacher will be impressed that Billy is the best math student.

El martes, Billy tenía un A+++ en matemáticas.

En la casa Billy practica matemáticas todos los días con ayuda de Nate.

El miércoles hasta viernes era vacaciones de febrero y Billy hizo más y más matemáticas todos los días.

El jueves Billy practica un poco de división y un poco de multiplicación.

Messi shoots a penalty kick during a game.

Brian Arias, Anthony Acevedo, Khristopher Prado & Matthew Ortega  
Sports section reporters

To score goals easier in soccer, you need to be fast and be good at shooting. Observe the goalkeeper's position to shoot the ball where the goalkeeper is not. You need to have a lot of accuracy to be a good player. This will make other managers want you on their team. So if you do all of that, and are a good player, you might make it on a real soccer team. You also need to have a good soccer team to win soccer games. If your team is not good, you won't win that much and that's why you need a good team. Hay muchos jugadores de fútbol en el mun-

## Stats

In the 2014 World Cup, Germany made seven goals and Brazil made one goal. Germany made more goals because more people on Germany scored. Germany got a yellow card because they pushed at the player. Germany won the World Cup and at the end of the game they stayed there for a while and then they went to the airport. The World Cup was in Brazil.

Johan Callejas  
Sports section reporter

# Soccer: Skills, reglas, penalties y lesiones

do y hay muchas reglas. No puedes empujar o usar las manos. No puedes pelear. Puedes tener una carta roja o amarilla si no sigas las reglas. Yo pienso que siguen las reglas son importantes. No puedes salir del campo. ¡Escucha a las reglas!

Penalties are when someone pushes you in the box and you can pass the ball to your teammates. If the other team has the penalty shot, your goalkeeper has to try to save the penalty shot so they don't score a goal. When it's your penalty shot you have to try to score a goal to get another goal. Sometimes it is good to have a penalty shot so you can score a goal and win.

Tu puedes ser lesionado si alguien te tropieza y tu te caes. Si tu caes, tu no puedes jugar. Algunas veces no puedes jugar por un año. Algunas veces no puedes jugar por algunos meses. Algunas veces no puedes jugar por algunos días. Cuando tu tropiezas alguien puedes tener una carta roja. Cuando tienes una carta roja, no

puedes jugar algunos días. Cuando no puedes jugar, tu equipo no puede ganar. ¡Eso es porque no puedes tropezar y no puedes hacer lesiones! También tiene que sentar en el banco por todo el juego y no puedes jugar por todo el juego. When you trip someone, you can get a red card and can't play.

You need to be benched and watch the whole entire game. And it will be very boring since the game is 90 minutes. (45 minutes for halftime, and another 45 minutes for second half.) When you get a red card, you can't get substituted, and your team will only have ten on the field, when the original players on the field would be eleven. I think if that if someone gets injured, people should show a bit more sportsmanship and try to help.

A person is injured during a soccer game.

photo courtesy of Wikipedia

Barcelona won against Real Madrid and they are the best players in the whole world. They won the Champion League trophy. They are champions and Messi won four FIFA ballon awards. They won a lot of times and Messi is the best player on the team and he has good passes to his teammates. His teammates have good passes too. So that's why they win a lot of points and Barcelona almost never stays off sides to score a goal against another team. Messi waits in front of the goalie and his teammates pass it to him and he makes a goal. That's how they win a Champion League trophy and they get a medal. Messi usually beats Real Madrid. So that's how his team wins almost every month and every year. Messi is always focused on his games and pays attention to the ball. His teammates always pass the ball to him. Messi is good at using tricks to help Barcelona beat Real Madrid.

Jeremy Medina  
Sports section reporter

Real Madrid está jugando bien porque ellos practican todos los días. Real Madrid ganó contra Paris Saint-Germain porque la defensa y los delanteros son buenos. Real Madrid ganó dos copas porque los jugadores ponen atención el director técnico. Para Real Madrid, la defensa es importante porque el otro equipo no puede meter un gol.

# Miner Maze por Isaac Sandlin, Jackson Page y Diego Rodriguez

Huh? Es una pared de diamantes. ¡Es muy alta!

Pum Pum Pum

¡Ahhhh! ¡Grrrrr ahhhhh! ¡Es una trampa! ¡Me estoy cayendo en un laberinto subterráneo!

Ugg. Where am I?

¡Ahhhh! ¡Ayuda!

Ahhh! I'm in an underground maze!

I am the Monster King and I have made this maze, called THE MINER MAZE!

Después de mucho tiempo...

Muy bien bebé monstruo de roca.

Yo te voy a capturar.

¡No! ¡Yo te voy a capturar!

El miner usó el pico en el monstruo y el monstruo volvió en una cárcel.

We made this comic in an app called classroom. Classroom was connected to googledocs so we could write. My group came up with the idea based on the game Minecraft. My group was Isaac, Jackson and Diego. This next part is important--We made this comic by drawing too, but first we edited the writing. The end. For now...

# Gymnastics y bailando

Kenisha Garcia-Nieves, Julieyana Fortes, Genivee Bowers  
Sports section reporters

Gymnastics is a form of exercise. Gymnastics makes you flexible and healthy. In gymnastics you learn to do cartwheels, splits, and flips on a trampoline.

It is a lot of fun because you can go to competitions and win trophies. You also make a lot of new friends when you become part of a gymnastics team. If you do gymnastics you will not be bored at home because you will be having fun. Your friends can go watch you during the competitions and they can cheer you on.

On holidays there are more competitions, so you get to do more things. After the competitions and practices you get snacks.

If you do well in a competition your parents will be really proud of you, but if you don't do well they don't get mad. They will tell you "don't give up, try again." Sometimes you get to stay up late to practice. If the weather is nice you get to do gymnastics outside.

Gymnastics makes you flexible and gives you energy. Gymnastics makes you awesome. Gymnastics is fun and interesting for girls and boys. When you go to the competition in gymnastics you will go to the next level and when you get your uniforms you will get a different

color. You have to be really strong when you do gymnastics because you will have to use your arms a lot. When you do gymnastics everyday, it will be harder because you will be learning to do difficult things. You need to believe in yourself and not worry about what other people think about you. You have to be happy, not sad, because gymnastics is a place where you get to do a bunch of exciting things. Gymnastics inspires your mind. Gymnastics for some people is not so easy and that is true, but on the way it is going to be so easy.

Bailando toca mucha práctica. Bailando te hace magnífico y feliz. Bailando te toca muchas clases. La música de ballet es muy magnífico. Ballet tiene muchas técnicas. Para bailar ballet, necesitas zapatos de ballet. Tu puedes hacer todos los tipos de ballet. Tu puedes hacer todo que tu quieres.

Dancing is beautiful and takes practice. Dancing also makes you awesome and happy. You need nice clothes and shoes for dancing. Dancing is nice when there's music on. It takes time to learn how to dance because dancing is not very easy, but it is interesting to do. When you go to dance you have a music teacher and

# SPORTS

5

photo courtesy of Wikipedia

A girl practices gymnastics on the beam. the work gets harder as the classes goes on, just like in gymnastics. When you have practiced your dance you get to go to competitions. At the competitions you have to dance against other dancers. If you win the competition, you get a trophy and you move on to the next level. When you go to the next level of dancing, it will be harder and when you finish all of the levels of dancing you can go on to become a dance teacher. Thank you for reading the newspaper article.

# Cheerleading competition in Providence

Penelopi celebrates at North Providence High School after a practice competition.

Penelopi Alves  
Sports section reporter

North Providence Jets cheerleaders in 8u came in first place in their competition. As the cheerleaders practiced with all their might to win, they finally won. Also it was so fun for the cheerleaders! The cheerleaders had so much fun because they got to eat food and watch the 9u and 10u do

amazing cartwheels and tumblers and hand stands. Coach Brittany and the 8u cheerleaders finally got a trophy. The cheerleaders loved the competition. The cheerleaders were nervous, but they shined in the spotlight. Awesome right? Yeah I'm right, awesome. Finally, they came home with a shiny medal. Awesome.

# Football team statistics and opinions

**Avery Picchione:** The Pats beat the Dolphins 36 to 7 in a very exciting game. The Pats are still on the winning streak. Tom Brady had six touchdown passes leading the Pats to a 36 to 7 win against the Dolphins. Tom Brady has been doing very well this season. Gronkowski had two touchdowns during that game. Every team is trying as hard as they possibly can to beat the Pats. If any team is going to beat them, I think it would be the Broncos because the Broncos are creeping up on the Pats. Will the Pats hold their ground? We will see.

**Sebastian Herasme:** A los Patriotas no le han ganado pero a otros cuatro equipos no le han ganado son Broncos y Panthers. Yo creo que los Broncos y los Patriotas van a estar en el Super Bowl y yo creo que los Patriotas van a ganar. Ellos van a ganar dos Super Bowls corridos. Los fanáticos de los Patriotas van a estar muy felices. Y van a estar un paso más cerca de tener los mas super bowls en la NFL. Yo creo que los Pats y los Broncos van a estar en el Super Bowl y los Pats van a ganar. Si los Pats ganan, van a tener mas fanáticos. Y probablemente van a tener hasta mejores jugadores que tienen ahora. Yo no sé, pero tengo el presentimiento que los Pats van a tener una buena temporada. Y si no, yo voy a estar muy triste. Yo amo a los Pats y siempre los amare.

**Alex Rodriguez:** Yo pienso que los Patriotas necesitan un joven más que sea más rápido mariscal de campo. Yo pienso que ellos necesitan un otros WR porque Julian Edelman tiene un dedo roto. Yo pienso que necesitan más bien RBs. Que yo estoy diciendo es que los Patriotas necesitan actualizar unas posiciones. Yo pienso que necesitan un mejor CB. Los Patriotas son 9-0 y yo pienso que ellos van a la Super Bowl.

Photo of Patriots player, Robert Gronkowski, running with the ball.

**Luke Mathieu:** The Pats are winners from last year so they have a chance to go to the Super Bowl. Now Tom Brady has a chance to have a good year. They did have a great game against the Dolphins. Tom had a good pass to Edelman. I like the Pats too, so watch out. They are having a great year. They are valuable players, some of the best players in the world and maybe the best team in the world. I saw the Pats play a couple times. Pats are tied in the NFL with the Green Bay Packers.

**Jake Fitzpatrick:** The Giants lost to the Saints in week eight. Odell Beckham had three touchdowns against the Saints even though they lost. Odell Beckham Jr. had his best game of this season in week eight. The Giants lost by a heart breaking field goal by Patriots kicker, Stephen Gostkowski. Now the Giants are 5-5 after the loss against the Patriots. The Giants have a rivals match in week ten vs. the Patriots. What I'm saying is the Giants are good and they are building into a great team. I think the Giants could make the playoffs this year.

Derrick Coleman was cut from Seahawks after he was arrested. The Seahawks still beat Cowboys 13-12 in week eight. The Seahawks are 4-4 after the win. The Seattle Seahawks shut down Cowboys all star wide receiver Dez Bryant in the game. The Seattle Seahawks have a bye on week nine. Seahawks wide receiver Ricardo Lockette will return to Seattle after his neck surgery. The Seahawks are my favorite team because they win almost every game.

3A and 3B have taken their articles through the entire writing process (starting with brainstorming and finishing with publishing)! Thanks to our special guests, Ed Fitzpatrick, Ms. Julie and Mary Beth Meehan, who helped us with planning, publishing and captions!
